SYDNEY MIRA is a singer/songwriter hailing from Massachusetts. She is excited to announce the release of her debut single "BAD" on September 15, 2023. "BAD" is a moody, dance-driven pop anthem that reveals the vulnerability of admitting your faults while exuding the confidence to demand a love that accepts you as you are.

SYDNEY MIRA's music is influenced by the darker pop sounds and creative lyricism of musicians such as BANKS, Julia Wolf, Tate McRae, and Taylor Swift, coupled with the ethereal stylings of Ellie Goulding, Astrid S, and Sadie Jean. SYDNEY MIRA's lyrics are taken straight from her journal – honest, close to the heart, occasionally sarcastic, and confessional in their vulnerability. What we experience emotionally is layered and intricate, and those feelings and thoughts are intertwined in both darkness and light. These constant contradictions of emotion are what draw SYDNEY MIRA to create songs about the tangled parts of life, delving into topics such as toxic relationships (whether romantic or not), mental health, loss, love, and empowerment. As a passionate, fiery, and strong-willed Sagittarius, SYDNEY MIRA is always striving to break free of limitations, and songwriting is her escape.

SYDNEY MIRA is passionate about advocating for more opportunities for women within the music industry, particularly in such commonly male-dominated areas as music technology and recording/engineering.

**FOR FANS OF:** Julia Wolf, BANKS, Tate McRae, Halsey, Taylor Swift, Tove Lo, Sabrina Carpenter, Astrid S, Sadie Jean, Ellie Goulding, Dove Cameron, AU/RA
