

# SYDNEY MIRA

ARTIST | SONGWRITER | PRODUCER

**SYDNEY MIRA** is a singer/songwriter from Massachusetts. She released her debut single "BAD" in September 2023, immediately followed by her 2nd single "Bite" in October 2023. Her 3rd single "Candy Necklace" is a sexy, dream-like pop song about obsessive attraction and wanting to succumb to desire. Candy imagery alludes to the addictive power of sexual attraction. The melody is catchy. The lyrics are seductive and playful.

SYDNEY MIRA's music is influenced by the darker pop sounds and creative lyricism of musicians such as BANKS, Julia Wolf, and Taylor Swift, coupled with the ethereal stylings of Ellie Goulding and Astrid S. SYDNEY MIRA's lyrics are taken straight from her journal – honest, close to the heart, occasionally sarcastic, and confessional in their vulnerability. What we experience emotionally is layered and intricate, and those feelings and thoughts are intertwined in both darkness and light. These constant contradictions of emotion are what draw SYDNEY MIRA to create songs about the tangled parts of life, delving into topics such as toxic relationships (whether romantic or not), mental health, loss, love, and empowerment. As a passionate, fiery, and strong-willed Sagittarius, SYDNEY MIRA is always striving to break free of limitations, and songwriting is her escape.
